Long story shorter, shorter story better My leg shorter, no leg better He didn't say the story was over. A: I think "No leg is shorter than a short story," in the context of an indefinite plural. To summarize, the context is: To make a story better by shortening it. The first sentence translates as: Longer is shorter than shorter. #ifndef BOOST_DATE_TIME_STRING_FROM_TIME_HPP__ #define BOOST_DATE_TIME_STRING_FROM_TIME_HPP__ /* Copyright (c) 2006 CrystalClear Software, Inc. * Use, modification and distribution is subject to the * Boost Software License, Version 1.0. Therefore, although it is a waste, it is very useful as a fibrous material. The pulp has a long history and is presently used as a raw material for paper and cardboard and as a material for non-woven fabrics, such as for agricultural mulch, filter cloth, and cloth bags, and a material for fiber for jute and a kind of thickening agent for a latex material. The wastepaper usually consists of over 90% of wood. The wood fiber is usually a lignocellulose material, and has a low amount of nitrogen and phosphorus. The wood fiber also has a high lignin component, and has a low amount of free phenolic compounds such as phenol, cresol, xylenol and ketone bodies. The cellulose fiber has a high amount of free phenolic compounds such as phenol, cresol and p-cresol, and a low amount of free phenolic compounds such as ketone bodies. The amount of the cellulose fiber having the above-mentioned characteristics is usually in the range of about 2-10%. For example, the amount of the cellulose fiber in the common waste cellulose is usually in the range of about 2-6%. Therefore, the amount of the wastepaper in the common waste paper is usually in the range of about 30-70%. Although the wastepaper is cheap, the raw material must be effectively utilized, and there has been studied to use the wastepaper as a raw material for a new product. The wastepaper is used as a raw material of the following three kinds of materials. (1) Into a non-woven fabric for agricultural mulch, filter cloth and cloth bags, which are in use generally at the present time. (2) Into a thickening agent for a latex material and a
