The stunningly beautiful saga of the vampire, werewolf and wolf hybrid Twilight continues with "Breaking Dawn, Part 1", the second film in the epic Twilight Saga series. The film continues Bella (Kristen Stewart) and Edward's (Robert Pattinson) struggle to deal with the fallout of her pregnancy. Bella is still a prisoner of the Volturi, the vampire coven that demanded her remain with them. To gain her freedom, she must defy the members of the Volturi to complete a final task that will change her forever. In the process, she embarks on a dangerous journey to find the newly born child that was created from her and Edward's love. Bella learns more about her special gifts and realizes her destiny to be a vampire. On a remote island in a tropical paradise lies an unknown, recently discovered artifact. A rare and powerful relic. On the surface it looks like a lighthouse, but the occult symbol carved into the base of the structure stands for far more. It is a portal that leads somewhere the owners have yet to determine, but those who have come here have been gone for some time. Their disappearance was preceded by a string of grisly murders, which had something to do with the artifact. You, as a paranormal investigator and private investigator have been called in to find out what's going on on this remote island, and why there is still no word from the world of the missing people. "It's much more frightening if you know what it is." The advanced folks who bought Vial of the Dead were faced with the choice of either having the file secured and accessible only with their password or having it automatically uploaded into the cloud using DropBox. The choice was clear cut, and the eager research crowd decided to go with the upload option, since it was much easier to organize. Soon enough, every Vial of the Dead post went to the cloud and then into our archive, and the rest is history
